AIS Automation Dresden GmbH becomes Kontron AIS GmbH

Dear Madam / Sir,

Today we would like to inform you that AIS Automation Dresden GmbH now belongs to the technology division of the Kontron Group due to the affiliation to the S&T Group in Linz (our information from November 2019) and therefore operates under the new name **Kontron AIS GmbH** as of February 5, 2020.

We would like to ask you to always use the new company name in your correspondence with us from now on:

Kontron AIS GmbH
Otto-Mohr-Straße 6
01237 Dresden/ Germany

What does Kontron AIS GmbH stand for?

We stand by our values and our customers and partners. Therefore there will be no changes or restrictions to our existing services. On the contrary, thanks to the alliance with S&T AG, the course has been set for further expansion of our service portfolio and our products.

What remains?

We will continue and further intensify the trustful business relations with our customers, partners and suppliers, which have been established during the almost 30 years of AIS. The existing contracts and bank connections do not change. Agreements already made between you and the predecessor company are also binding for Kontron AIS GmbH.

Your previous contact persons are looking forward to a continued good cooperation with you. The contact details remain unaffected.

Geschäftsführung:
Dipl.-Ing. Dirk Sauer
Dipl.-Ing. Michael Jacob

BLZ: 870 700 00

SWIFT-BIC: DEUT DE 8C XXX
IBAN: DE108707 0000 0245 1235 00

What does the future hold?

Based on the growth in 2019 and the extensive product portfolio of S&T AG / Kontron, the prerequisites for a successful future have been created. For example, Kontron enables us to offer comprehensive control hardware solutions.

With the EquipmentCloud®, we have created a comprehensive platform for equipment suppliers in recent years. In 2020, with the release of the new ToolCommander®, we will be able to offer our customers in equipment control an even more flexible and comprehensive framework. In factory automation, we will expand our services around the FabEagle® series and continue to offer PLC-based solutions in process automation.

We are convinced that together we can look forward to a successful future and that we will continue to be your reliable partner with our new name. Please do not hesitate to contact us with any questions you may have.

Many thanks for your trust and the good and successful cooperation so far. We are looking forward to further joint projects.

Yours sincerely

Michael Jacob
